FX Range Features

Laundryserv's freestanding, high spin washers contain a host of features to benefit the user and their laundry.

Large loading door opens 180° making the machine easy to load and unload for the operator.

Large door handle makes it easy to operate and features a continuous ratchet mechanism making it almost impossible to overturn and damage.

Easy access to all vital parts of the machines make servicing and maintenance quicker.

Variable spin speed allows programmes to be tailored to reduce drying times or protect delicates.

 **TRACE-TECH**® an optional wash management tool enabling reports and statistics to be monitored and recorded on each wash.

Digital controls offer Xcontrol or Xcontrol plus for easy or full control options. The easy to use digital display guides users through programme options and instructions in multiple languages.

15% Less Water Consumption

Due to the enhanced drum design combined with the

features for enhanced mechanical and rinse action with less water usage.

25% Less Residual Moisture

Due to the unique drum design and high G-force achieved on spin.

20% Less Energy Consumption

Lower water levels during the wash cycle reduces energy required for heating whilst reduced residual moisture reduces ongoing drying energy requirements.

supereco programmes even create savings through reduced wash times with reduced water and power consumption for lightly soiled loads.

Laundryserv's Auto Dosing System provides a reliable and efficient addition to any on-site laundry, ensuring that the correct amount of detergent or chemical treatment is used in every wash. Easy to use, it saves money by eliminating over-dosing of chemicals and by reducing chemical handling and possible spillages provides a cleaner, safer environment for staff.

Laundryserv are committed to providing a complete quality service including:

- A 24 / 7 staffed contact line
- A choice of Service Level Agreements, including an 8 hour response option
- 95% First time fix rates
- Preventative maintenance visits
- Nationwide team of fully qualified, trained engineers
- Choice of full service rental or purchase and extended warranty packages
