# wash

Laundryserv's detergent experts tailor the auto dosing system to your specific laundry requirements taking into account fabric, soiling and water types to provide the best possible wash results, and should your laundry needs change, we're always on hand to provide advice and support.

#### **Accurate Dosing**

Laundryserv's Auto Dosing System ensures that exactly the right amount of detergent is used in every cycle, giving you the best possible wash results with optimum fabric care.

#### **Save Money & Time**

Accurate dosing saves money by reducing over use of detergent, spills & casual theft. And because the system is automated, it leaves your staff free to carry out other tasks, increasing their productivity.

#### **Reduce Chemical Handling**

With automatic dosing on every wash, direct contact with potentially hazardous chemicals is removed, removing the likelihood of spills, making a safer and tidier environment.
